The European Union Ecological Label or European

Ecolabel is the official European system to recognise and identify environmentally friendly products and services. This label addresses the effects of a certain product or service on the environment from a life-cycle perspective, right from the extracting of the raw materials to its final destination.

448 products of Basque companies
holder the ecolabel of the
European Union.

The EMAS (Eco-Management and Audit Scheme) is the Community Regulation and the tool developed by the European Union to recognise those organisations that have implemented an EMS (Environmental Management Systems) and committed to continuous improvement, checked by means of independent audits.

100 Basque organisations
are EMAS registered.

European Union Ecolabel

Role of the Basque Government's Ministry of Economic Development, Sustainability and the Environment, and Ihobe as regards the European Union Ecolabel

The competent body as regards the European Union Ecolabel of the Basque Country is its Ministry of Economic Development, Sustainability and the Environment, through its Environmental Sustainability Office. Ihobe's role as regards the European Union Ecolabel is to support the Ministry in the processing of those applications.

Representativeness of the products and certificates of the BAC with respect to the rest of the Spanish State

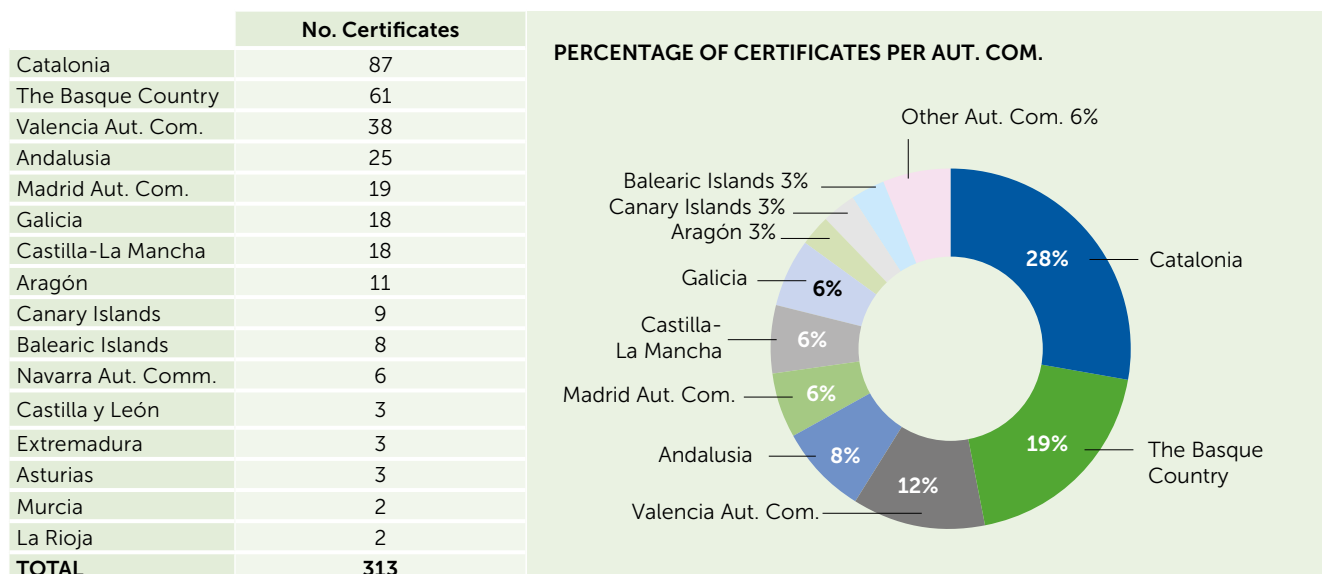

The data for the Basque Country and the other Autonomous Communities are set out below. These figures have been obtained from the official catalogues of the European Commission, as of 31 December 2023 (<http://ec.europa.eu/ecat/>).

- Products: <http://tinyurl.com/5yhy6ccp>
- Rural Accommodation: <http://tinyurl.com/ykfrkzp6>

No. of products with EU Ecolabel in Spain

No. of certificates with EU Ecolabel in Spain

The BAC is the **second autonomous community both in terms of the number of products (15%)** with the EU Ecolabel and of the **number of certificates obtain (19%), in both cases after Catalonia (42% and 28%, respectively).**

Presence of the BAC products with EU Ecolabel compared to Spain

Categories	BAC	Spain	% BAC

Indoor cleaning services (52)	1	10	10%
Other categories	0	251	0%
TOTAL	448	2.987	15%

The BAC is the autonomous community with 100% of products certified in the “**Furniture**” category.

70% of the holiday accommodation certified in Spain is in the BAC.

The Basque Country is also the **leader in the cosmetic products and graphic paper categories**, with over 60% of the products in both categories.

However, there are **categories that do not hold ecolabels**. Those categories are: Dishwasher detergents; industrial and institutional laundry detergents; textile products; electronic equipment; lubricants; hard coverings, wood-, cork- and bamboo-based floor coverings; personal absorbent hygiene products; **animal care products; footwear; mattresses; printed paper; stationery and paper carrier bags; growing media and soil improvers; and reusable menstrual cups**. There is no certified product in Spain in the last 6 categories.

Presence of the EU Ecolabel certificates obtained in the BAC compared to Spain

Categories	BAC	Spain	% BAC
Tissue paper and tissue paper products (4)	4	24	17%

Representativeness of the products and certificates of the BAC with respect to the rest of Europe

The EU certificate accounts do not only envisage the number of products or number of certificates (licences), but the accounting also includes other aspects such as the number of countries in which the product is sold or the different names under which a single product can be marketed.

However, by extrapolating the European Commission data regarding the representativeness of the products⁴ and certificates in Spain, and subsequently extrapolating the Basque data calculated in this report, the following representativeness of the Basque products and certificates can be obtained with respect to the total European Union Ecolabels.

	EU Representativeness Report Sept. 2023			ECAT Representativeness ⁴			Estimate
	EU	Spain	% Spain/ EU	Spain	BAC	% BAC/ Spain	% BAC/EU
Products	88.921	13.729	15%	2.987	448	15%	2,32%
Certificates	2.584	364	14%	313	61	19%	2,75%

Therefore, **the number of Ecolabel products of the BAC in the EU can currently be estimated to be around 2.32%** of the products with this label in Europe, which is slightly down on the **number of certificates (2.75%)**.

⁴ The data published by the European Commission for 2023 can be found at https://environment.ec.europa.eu/topics/circular-economy/eu-ecolabel-home/business/ecolabel-facts-and-figures_en. The data are published half yearly; therefore they are the most recent available (September 2023).
